

Members are as diverse as the services they offer. Some trade Brights constantly, others only occasionally; it's entirely up to the individual.

'It's perfect for people who have just moved to the area.'

'Over the years of my membership I have met a great variety of people from very different walks of life, with differing interests and involvements who I wouldn't have had contact with otherwise.'

'i made a large card sewing flowers and leaves onto a moire silk background and adding rose oil so that the card would appeal to several senses. i loved being commissioned to do something creative, and i really liked the idea that someone remembered me and what i did from so long back. it was a great start and i have picked up more projects along the way.'

What's the Bright Exchange?

Who can join and how?

'Through the Brights I have access to such a huge variety of people and services. I find it liberating not to exchange money with each other. With this system, alot of good things are within easy reach... lifts, music lessons, DIY help and even gorgeous fantasy birthday cakes...'
